Worksop Bus Station

To whom it may concern.

Pro Dem worked on a demolition contract in Worksop for Wates on a new bus station we are constructing. This was in September this year.

I myself had never worked with them, so I did not know what to expect, even though they came across very professionally & able in the Plan Right/Pre Start meeting.

The MD (Martin Cross) produced a detailed programme for the works they were undertaking & the works ran as smooth as clockwork.

Shaun Gunn was the Supervisor for the works & he is a very able & helpful supervisor. I never once had to chase him up for PPE issues, QA forms, tool box talks etc. etc. & they conducted the demo' works very professionally & more importantly, safely.

As I have previously stated to my Construction Manager. I would not hesitate to use Pro Dem again, or put their name forward for any other works Wates require a Demo' Co.

If you feel the need to contact me to discuss anything further, then please tel: 07500 816847 or email daryl.green@wates.co.uk.

Regards

Daryl Green (Project Manager, Wates Construction)
